

MaxiAIDS Eye Chart

Step 1: Remove your glasses and step back approximately 14 inches away from the eye test chart.

Step 2: Read the lines starting at the top. When you reach the first line that you have trouble reading, look at the number to the left.

Step 3: Use that number when choosing a strength to order.

+3.00	Trust Your Vision to MaxiAids
+2.50	Trust Your Vision to MaxiAids
+2.00	Trust Your Vision to MaxiAids
+1.50	Trust Your Vision to MaxiAids
+1.25	Trust Your Vision to MaxiAids
+0.00	Non Strength

NOTE: The above chart is intended as a general guideline only. As there are many variables in the material you read (ex. printed material vs. text on computer screens, different font styles, etc.), this chart may not fully and accurately assess your vision.

Attention: Ready-to-wear non prescription glasses are not intended to replace prescribed corrective lenses or examinations by an eye care professional. Regular eye check-ups are necessary to determine your eye health status and vision needs.
