Alarm will default in three seconds to original setting

Go To the Next Alert

**When your Alarm is Beeping/Flashing here's what you do:**

Press the **Next Alert** Button on the *le*ft side of the control panel.

The Alarm will stop beeping immediately and your Next Alert has been activated.

LED Light will continue to flash for an additional 10 seconds so you know which pills to take and then will stop flashing until your next alert.

Repeat every time your alarms are sounding/flashing

Remove or Replace Daily Boxes

REMOVE:
Lift box from the back side and tilt up and then lift up to remove
REPLACE:
Angle front end of box into base unit and then push back side of box down into place.

Once a Day
Front row is for week 1 and back row is for week 2

Twice A Day

The row facing front is alarm "1", for the first alert of the day.
The row facing back is alarm "2" and is for the second alert of the day

When Setting Times

The LCD Digits will continue to flash/set in 3-5 seconds after completing or not pressing any buttons. If no buttons are pressed unit will go back to original default

Alarm Sounds as Follows:

5 MINUTE CYCLE THAT REPEATS EVERY 25 MINUTES

MINUTES	1 & 2	50% VOLUME
MINUTES	3 & 4	80% VOLUME
MINUTE	5	100% VOLUME
